

JOE CIPRIANO

ONLINE PROMO MASTERCLASS

My online Promo Masterclass is a self-paced 4-week course that is designed to give you everything you need to know to succeed in the promo world and find your promo mojo. You can do it at your own pace, any time of the day or night that fits your schedule, anywhere you are. We will cover the exact same material I teach in person at voice over conferences, retreats and my in-person Masterclasses.

Included in the course, you will work from my interactive Master Class booklet covering every type of promo session you could possibly encounter, whether you're voicing promos for cable networks, streamers, digital, or broadcast network television. And, I will be with you every step of the way via video explanations of your instruction, and your workout for that week's study.

Upon completion of this online course, you will be ready for anything that comes your way in the promo world. I'm joined in the digital online class by professionals who work every day in every aspect of the business and who will share their knowledge and information with you.

This course is not only about how to voice promos but how to become a working promo voice over artist and gain the confidence that is required and expected of you in promo. Plus, we'll work on the different types of reads and skills, such as getting in touch with your "soul-clock" things that I've learned over the years voicing promos every day at the networks.

With my online Promo Masterclass, you will work at your own pace, with reasonable deadlines for video and audio assignments you will upload to me, which I will review, personally respond to and direct your reads, often asking for retakes to fit the direction.

By the end of the Joe Cipriano Online Promo Master Class, you'll be ready for anything that comes your way in the promo world. I'm looking forward to working with you, developing your "soul-clock," and helping you find your promo mojo.
